

## Project Manager for Key customers

### Company Description:

Are you ready to join an international company that is focused on creating sustainable products for foodservice and airline industries?

Probably at some point in your life you traveled on the plane & ordered some food or went to your nearby takeout place to buy a salad for lunch. In this case, you might have seen deSter products and didn't even know it. A lot of people don't realize that both worlds of airline cabin equipment and food packaging can be exciting, but it is more than that. deSter is unique in its industry because we source, design, manufacture and transport products which are aesthetically pleasing, functional and environmentally friendly. Our purpose is to create sustainable food and travel experiences and we need you on this journey.

If you want to be a part of a company that strives to create a better and more sustainable future, you are in the right place.

### Job Summary:

We are searching for a project manager with a specific focus on projects for our key customers.

### Main Duties and Responsibilities:

- leads key introduction projects including the coordination and completion of projects on time, within budget and within scope.
- oversees all aspects of projects, sets deadlines, assigns responsibilities, monitor and summarize progress of project, create and maintain comprehensive project documentation, prepare reports for senior management regarding status of project and manage changes to the project scope
- Coordinate internal resources and third parties/vendors for the flawless execution of multiple projects
- Measure performance using appropriate project management tools and techniques, specifically to analyze the successful completion of short and long-term goals and perform risk management to minimize potential risks
- Use and continually develop leadership skills
- Establish and maintain relationships with relevant departments within the company

### Requirements:
